

STAGE MALTA: Keeping up to date with the latest Internship Vacancies!

From time to time we get requests from our partners requesting foreign interns to be part of a project. Project Managers are always excited to have an international, multi-cultural and multi-disciplinary team as this provides a very interesting dimension to the project.

Working on such projects is an interesting opportunity for the interns involved. This is because it not only gives them the opportunity to conduct a Work Placement in Malta

IT in Education

STAGE MALTA is currently partnering with a private school to create a more IT friendly teaching environment for teachers and students alike. It is for this reason that we are currently looking for dedicated IT students who would like to conduct an Internship in creating such systems for teachers.

Please forward this announcement to your IT students. It would be a great experience for them to participate in such an innovative project.

For further information contact Roberts on internship@stagemalta.org.

(a Mediterranean Country which is blessed with a lot of sunshine and history) but also makes them aware of how to work in a diverse team as they are exposed for various working ethics.

We constantly have requests for Graphic Designers, Marketing Personnel, Child Care, IT, HR and Business Administration. We have set Work Plans and Collaboration Agreements with over 400 companies in the mentioned fields. However we also have catalyst and the 'one-off' internship requests which we are always excited to receive.

It is only thanks to your collaboration that such opportunities would be possible. Thus, we take the opportunity to thank you for your cooperation, trust and patience and we look forward to venturing further into interesting collaborations.
